

Minimum requirements for providers of bunkering services

Port of Pori Ltd grants the right to provide services in accordance with Regulation (EU) 2017/352 of the European Parliament and of the Council in the port area administered by Port of Pori Ltd and requires that the following requirements are fulfilled by service providers and their subcontractors who register themselves to take care of the bunkering of vessels in the area of Port of Pori Ltd. If the service provider uses subcontractors, it undertakes to ensure that the subcontractors meet the minimum requirements and follow the relevant procedures.

Bunkering services mean, in accordance with the regulation on the provision of port services, the provision of solid, liquid or gaseous fuel or of any other energy source used for the propulsion of the waterborne vessel as well as for general and specific energy provision on board of the waterborne vessel whilst at berth.

Port of Pori Ltd grants a permit to provide bunkering services in the port area administered by Port of Pori Ltd in accordance with the regulation on the provision of port services, if the service provider and its subcontractor fulfil the requirements described below.

A notification of the application of the permit must be submitted to Port of Pori Ltd to address Merisatamantie 4, 28880 Pori, Finland, or by email to Info@portofpori.fi

Port of Pori Ltd makes a decision within three (3) months based on the notifications/registrations made by the companies. The notifications made to Port of Pori Ltd must describe how the company will organise its operations and state that it fulfils the below minimum requirements. The notification must be accompanied by documents indicating that the company fulfils the minimum requirements laid down below.

1. GENERAL MINIMUM REQUIREMENTS

- 1.1. The company must comply with laws and decrees, be registered in the Finnish Trade Register or other business register in the EU area, in the preliminary tax withholding register and employer register in accordance with the Finnish Preliminary Tax Withholding Act and in the register of those liable to pay value-added tax in accordance with the Finnish Value-Added Tax Act, and the company must have paid the social security contributions, pension insurance contributions and taxes. The company must be included in the tilaajavastuu.fi service or issue quarterly certificates to indicate the fulfilment of its responsibilities under public obligations and the Finnish Act on the Contractor's Obligations and Liability when Work is Contracted Out.
- 1.2. The service provider must have sufficient financial capability to provide the service.
- 1.3. The company must have a valid liability insurance for its operations. The liability insurance must cover all damage caused by the company by its services to Port of Pori Ltd, its customers, vessels arriving at the port and third parties.

2. MINIMUM REQUIREMENTS RELATING TO BUNKERING

- 2.1. The company agrees to provide bunkering services within the area administered by Port of Pori Ltd in a reliable, uninterrupted and equitable manner to all vessels in accordance with demand. The service provider charges the services directly from the shipping company or its agent.
- 2.2. All persons who participate in the work are required to be instructed in the work and to comply with the terms and conditions of the Port Regulations, the occupational safety and security regulations to be followed at the port, and the valid terms and conditions of permits issued by the authorities. The work must be carried out by using sufficient personnel in terms of the service level and occupational safety.
- 2.3. When providing the service, the service provider must comply with the national obligations and regulations of Finnish social and labour law and collective labour agreements, including obligations and regulations concerning sufficient personnel as well as working hours and rest periods.
- 2.4. The bunkering services must be planned and provided so that the vessels using the service or other port traffic do not have to wait or suffer inconvenience because of the service. Before starting the bunkering service, a notification must be made to the Traffic Services department of Port of Pori Ltd, stating the type of the fuel to be bunkered, the name of the vessel, the quay, and the time of bunkering.
- 2.5. The bunkering services must be planned and provided so that no emissions are caused to the water or soil. The company that provides bunkering services must make preparations by means of adequate prevention equipment and material intended for covering rainwater outlets.
- 2.6. The equipment used for the service must be suitable for providing the service in all local circumstances.
- 2.7. The company that provides bunkering services must report any damage to the quays, emissions and other damage, which has taken place in connection with the provision of the service, in the manner required by Port of Pori Ltd.
- 2.8. Port of Pori Ltd reserves the right to change these minimum requirements for a justified reason. The changes will be notified to the service providers before the changes take effect.

3. APPEAL AND FINISHING OF OPERATIONS

- 3.1. The service provider may lodge an appeal against a decision made by Port of Pori Ltd to the Finnish Transport and Communications Authority (Traficom), address Liikenne- ja viestintävirasto Traficom, PL 320, 00059 TRAFICOM. The instructions for appeal are appended to the decision.

- 3.2. Even after the permit has been granted, the service provider has a duty, at the request of Port of Pori Ltd, to indicate that the service provider complies with the minimum requirements set. Port of Pori Ltd may cancel the right to provide the services if the service provider does not provide the requested account regarding the fulfilment of the minimum requirements of the service or correct its operations to conform to the minimum requirements within 30 days of the written complaint by Port of Pori Ltd.
- 3.3. Port of Pori Ltd has the right to prohibit the service provider's operations in the port area immediately if the service provider deliberately or by way of gross negligence breaches the conditions and obligations laid down in the minimum requirements.
- 3.4. The service provider must inform Port of Pori Ltd of any change to the provision of the service referred to in section 2.1 above at least [three (3) months] before the change takes effect.
- 3.5. An acceptance document is drawn up between Port of Pori Ltd and the service provider concerning the provision of services in the port area. The acceptance document is used for agreeing on the fulfilment of the minimum requirements laid down in this document throughout the validity of the permit. The service provider must not start providing the service in the port area until Port of Pori Ltd has signed the acceptance document.
- 3.6. This minimum requirements document and the acceptance document are drawn up in the Finnish and English languages. In case of a dispute over the interpretation of these documents, the Finnish text shall apply.
- 3.7. The service provider must inform Port of Pori Ltd of its intention to stop providing bunkering services in the port area. This information must be given at least [three (3) months] before the finishing of the provision of the services.
