

Additional Information and Application Guidelines for Other Discounts on Vessel Waste Fees

In accordance with Section 4, Subsection 4 of Chapter 10 of the Maritime Environmental Protection Act, Port of Pori Ltd grants a 5% discount on the vessel waste fee to short sea shipping vessels.

The basis for the discount on the vessel waste fee due to short sea shipping is that the vessel demonstrates it has disposed of its waste, subject to the fee, in any port within a maximum of 48 hours prior.

5% Discount on Vessel Waste Fee for Particularly Environmentally Friendly Waste Management

The basis for this discount is the equipment or methods used on the vessel that result in a lower-than-usual amount of waste delivered to shore or waste that is recyclable.

To be eligible for the discount, the vessel must meet one of the following conditions:

1. The vessel separates waste in accordance with resolution MEPC.295(71) and ensures its delivery to appropriate reception facilities in the port, which comply with Article 4(2)(d) of Directive (EU) 2019/883.

To receive the discount, the vessel must present one of the following verification methods: Green Award, ISO 21070, Blue Angel, Green Marine, waste delivery certificate, vessel-specific waste management plan approved by the classification society, or an ISO 14001 certified environmental management system.

or:

2. Sustainable procurement policy (reducing packaging materials such as loose packaging and avoiding single-use plastics).

To receive the discount, the vessel must present one of the following verification methods: Green Award, ISO 21070, Blue Angel, Green Marine, vessel-specific waste management plan approved by the classification society, or an ISO 14001 certified environmental management system.
